## Super Tap & Drilling Compound

### Why was SUPER TAP & DRILLING COMPOUND developed?

SUPER TAP & DRILLING COMPOUND was developed to aid in rapid reproduction of premium cut threads, holes, fits and finishes on hard to cut metals and alloys, saving you thousands of dollars in wasted parts.

### DESCRIPTION:

Super Tap & Drilling Compound is a chemical tapping compound unlike anything ever offered in this field. Super Tap is not a cutting oil; it is a premium blend of quality chemicals that will aid tremendously in rapid production of excellent quality tapped threads. Use of Super Tap also reduces tap breakage and tool wear. Tools and taps treated with Super Tap & Drilling Compound provide outstanding results in hard to machine metals and alloys. Super Tap & Drilling Compound will decrease down time and tool grinding. The elimination of spoiled parts caused by tool breakage will save you hundreds of dollars.

### PERFORMANCE CHARACTERISTICS:

- Excellent on aluminum, zinc, and D2 metals
- Aids in rapid production of high quality tapped threads
- Reduces tool wear and tip breakage
- Provides outstanding results in hard to machine metals and alloys
- Convenient adjustable spray tip
- Non-toxic
- Stays where you spray it
- Leaves a residual
- No mess
- High film strength
- Multi-purpose
