

DAC-118

Lecithin Mold Release with Acid Vapor Neutralizer

Why was LECITHIN MOLD RELEASE WITH ACID VAPOR NEUTRALIZER developed?

DAC's Lecithin Mold Release with Acid Vapor Neutralizer was developed to eliminate acid vapors before the corrosive attack begins. The acid vapors produced during the molding operations are dissolved when they come in contact with Lecithin Mold Release with Acid Vapor Neutralizer.

PERFORMANCE CHARACTERISTICS:

- Neutralizes acid vapors on contact
- Excellent preventative maintenance
- Can be used for overnight protection
- Neutralizes and releases in one application
- Eliminates surface pitting during molding

REMOVAL SPECIFICATIONS:

If build-up occurs, flush with DAC-103 Universal All Purpose Degreaser.
