

DAC-75751

Penetrating Oil

Why was PENETRATING OIL developed?

DAC's PENETRATING OIL was formulated to provide you with premium performance, along with an anti-wear package that will lubricate far better than the competition.

DESCRIPTION:

Penetrating Oil rapidly displaces moisture, lubricates, cleans, penetrates and stops corrosion on all metals. It reduces your maintenance time. Our anti-wear extreme pressure lubricating film will never harden and is low in toxicity. Certain types of plastics and painted surfaces may be softened.

SUGGESTED USES:

- Loosens nuts
- Lubricates power tools
- Frees sticky parts
- Lubricates pneumatic tools
- Excellent as a chain lubricant

USES:

Loosens and lubricates nuts, bolts, mufflers, manifolds, heat risers, control cables, brake adjusters, U-bolts, linkage, tie rod connections, locks and latches, electric switches, front end adjustments, engine head bolts and aerials. Stops squeaks and binding on doors & hinges, brake pedals, pivots, rubber bushings, throttle controls, carburetor linkage, brake assemblies, speedometer cables, locks, electrical appliances, motors, sump pumps, power tools and workshop equipment. Stops and prevents corrosion of battery terminals, chrome trim, tools and all metals. Removes moisture from distributor ignition wires, starter motors, spark plugs, generators and alternators. Wipe out excess of distributor cap before re-installing.
